FINK FENCING Inc

Village of Montfort
 Specifications and Proposal for ball Field designed to have signs and withstand 80 MPH Wind
 11/11/2016

Linda Collins

Linda,

These are the specifications for a 6'tall fence that will withstand 80 mph winds with signs on it. The specifications for the size of the signs and height that they can be installed at are also included.

Terminal Posts	2 7/8 x 10' SS 40 Galvanized Post ASTM F 1043 Group IC
Line posts	2 3/8 x 10' SS Galvanized 40 Post ASTM F 1043 Group IC @ 8' Centers
Concrete footings	12" Diameter x 4.5' deep with top of concrete 6" below ground level
Top Rail	1 5/8 x 21' SS Galvanized 40 Pipe ASTM F 1043 Group IC
Chain-link Fabric	2" x 9 Gauge (0.148) x 6' tall Aluminized Wire .30 oz/ft ² Aluminum Coating Meets ASTM A 491
Top Rail Ties	1 7/8 Brace Bands with 5/16 x 1 1/4 bolt at 12" centers
Post Ties	2 3/8 Brace Bands with 5/16 x 1 1/4 " Bolts at 12 " centers
Max sign size	4" x 8' mounted attached to fence at 1 foot increments around the sign
Max height of sign	Top of sign must not exceed 5' off the ground
Length of Fence	440 feet
Height of fence	6'
Pricing	Today would be 9560.00 Should probably add on 10% for possible rise in steel prices.

9560.00
 x.10

 . 956.00 Increase
 9560

Hi Linda,

Pleasure speaking with you the other day regarding our ChampionWall® outfield wall system. As discussed, I am forwarding you product information for your review. The ChampionWall® is an extruded plastic wall system with the color impregnated into the plastic as it is extruded. The wall panels are tongue and groove, sliding (snapping) together easily. A section through the wall resembles an I-beam, which give the panels support within the foundation trench, prior to pouring concrete. We recommend for walls up to 6' high, a two (2') foot depth foundation, so an 8' wall would be provided for this application. Once in place we supply a substantial yellow top cap. It greatly defines the outfield wall and is equal to the depth of the "I". The cap is secured to the wall (as would distance numbers) through self-tapping screws. They are color matched.

Budget pricing is based on approx. \$ 7.00 / sf. for the panels and \$ 8.00 / lf. for the wall cap. Based on the 400' dimension you provided, I would conservatively price the wall at ~~\$ 29,000~~ **\$ 22,400** wall / \$ 3,200 cap) for material (excluding freight). Estimate is based on supportive soils. Should the project move ahead with the ChampionWall, we could provide engineered drawings if needed. Also conservatively, I would expect installation costs to double the material price.

I will forward you a second e-mail containing photos of recent ChampionWall installations.

Please let me know if you have any questions or needs for additional information. Have a wonderful Holiday !

-Steve

ChampionWall®

For many years SportsEdge® has led the way in identifying and responding to the needs of the sports construction marketplace by designing and supplying revolutionary products that improve the quality and aesthetics for sports facilities of all kinds. The ChampionWall® System is the latest innovation and addition to our SportsEdge® product line. SportsEdge is proud to be the exclusive distributor of ChampionWall®, the Athletic Fence System that takes your game to the next level!

ChampionWall is a baseball or softball outfield wall system made from extruded PVC. This high-performance athletic wall replaces outdated chain link fencing, padded outfield walls, and windscreens.

ChampionWall® is a sturdier, longer lasting, better looking alternative to chain link fences. With ChampionWall there is No Painting, No Denting, No Rust, No Rot, No Tearing and No Windscreens to attach. ChampionWall is the long-lasting, maintenance-free way to give your athletic program a true “stadium feel”. ChampionWall adds to the grandeur of your field with strong durable and resilient materials. It provides a nostalgic stadium feel with synthetic interlocking panels that create a sturdy wall that will stand the test of time. The same materials in ChampionWall are used for sea walls and recommended by the U.S. Army Corp of engineers.

Product Features & Benefits

- **Premium Aesthetics - There's no Better Finished Appearance**
- **Sturdier & Longer Lasting than chain link fences, ChampionWall withstands the toughest conditions**
- **Hassle Free with Minimal Maintenance - No Painting, No Denting, No Rust, No Rot, No Tearing and No Windscreens to attach.**
- **Variable Heights – Tailor made to your requirements!**
- **Built-in Batters Eye in centerfield Optional**
- **Ease of Installation**
- **Eco-friendly - Made from 98% Recycled Materials and is 100% Recyclable**

Groundbreaking Innovation in the Field of Sports Walls. ChampionWall Keeps the Game In!

Eco Friendly

These sustainable wall panels contain over 98% recycled materials and are 100% recyclable.

Locked

Interlocking synthetic panels create a sturdy outfield wall that gives during impact.

Hassle Free with Minimal Maintenance

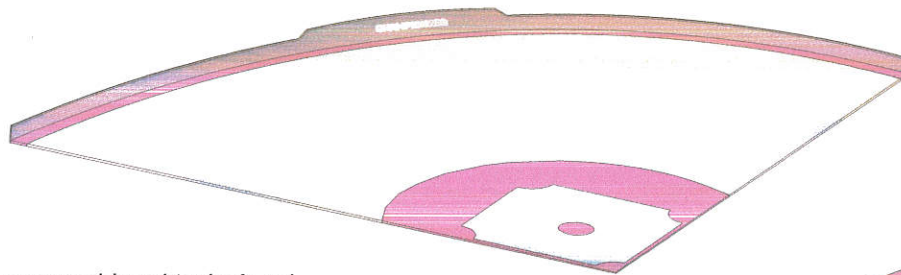

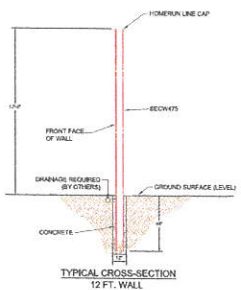

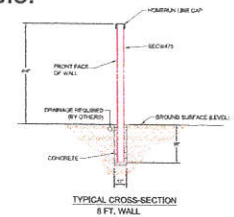

No painting. No denting. No rust. No rot. No tearing. No windscreens to attach. Obtain the lowest maintenance and service life requirements of any outfield wall or athletic fence.

Best Value

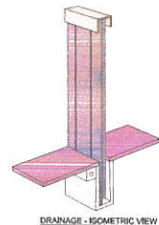

Get the highest performing outfield wall with the lowest lifetime cost.

Design

Choose from our Challenger, Defender and Eliminator wall color designs to elevate your athletic program's spirit.

FIELD ISOMETRIC VIEW

DRAINAGE - ISOMETRIC VIEW

The configurations shown are considered typical and for budgetary purposes only. Please rely on your engineer for specific design recommendations. Because of the complexity of geotechnical loading calculations and the susceptibility to extreme change of soil loads with minor changes in local site conditions such as soil parameters, water levels, surcharge loads, etc., the manufacturer strongly recommends the use of design professionals who are familiar with local wall construction to determine the required sheet piling and component capacities. The material contained within this drawing is not to be used for any project specific design.

REPAIRS NEEDED AT BALLFIELD----JANUARY 12, 2017

1. THE OUTFIELD LIGHTS NEED TO BE REWIRED
2. THE OUTFIELD NEEDS 400 FEET OF CHAINLINK FENCE WITH METAL POSTS
3. THE OUTFIELD GROUND SHOULD BE BROUGHT UP TO THE LEVEL BEFORE THE NEW FENCE IS INSTALLED
4. WE NEED A SCREEN OR NET BEHIND THE BACKSTOP TO REDUCE BALLS BEING LOST OR HITTING CARS
5. THE FENCE DOWN THE FIRST BASE LINE NEEDS TO BE EXTENDED TO REDUCE PEOPLE BEING HIT BY FOUL BALLS. THE EXISTING FENCE NEEDS TO BE INCREASED BY 2 FEET
6. THERE NEEDS TO BE CONCRETE DUGOUTS CREATED TO ELIMINATE THE HEAVY RAIN FROM WASHING OUT THE INFIELD AND CREATING LARGE RUTS
7. THE CONCESSION STAND NEEDS NEW COUNTERTOPS AND TOILETS IN BOTH BATHROOMS
8. THE CONCESSION STAND NEEDS 5 FEET ADDED TO THE ROOF SO THAT THE GUTTERS CAN CARRY THE WATER AWAY FROM THE PEOPLE STANDING UNDER THEM
